

Peace Ring

By Jeremy Shafer ©1999

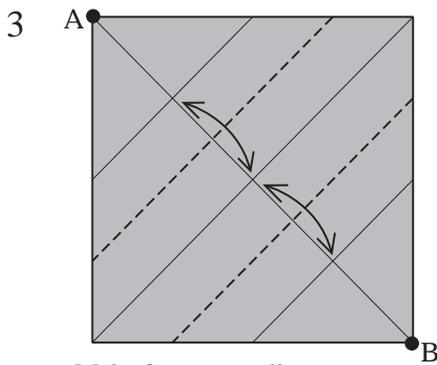

No more turbulent relationships!
Put this ring on your partner's
finger and enjoy living in peace
forevermore!

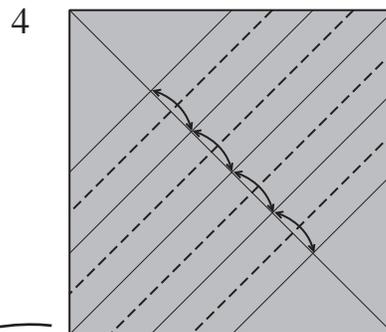

1 Begin with a three inch square sheet of foil, white side up. Valley-fold and unfold diagonally in half both directions.

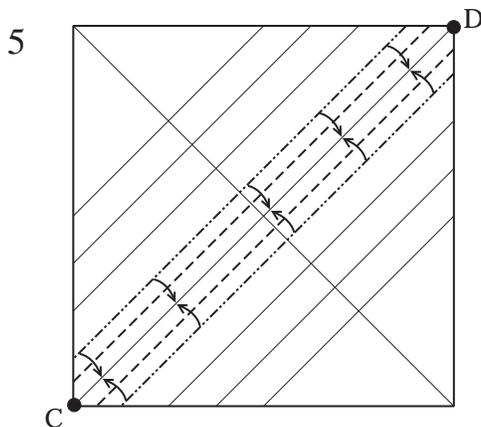

2 Valley-fold and unfold opposite corners to the center.

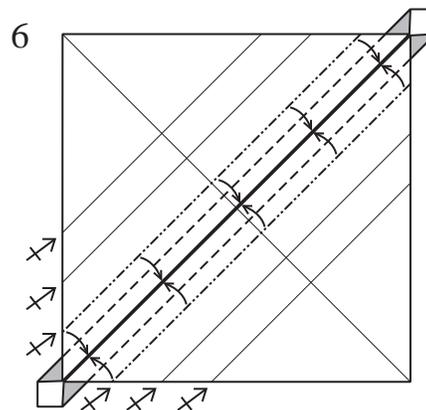

3 Make four new valley-creases, thereby dividing the line AB into eight equal sections.

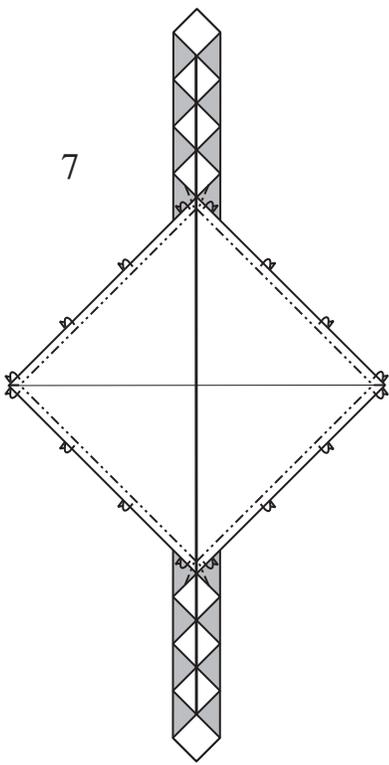

4 Make six new valley-creases inbetween existing creases. Turn the model over.

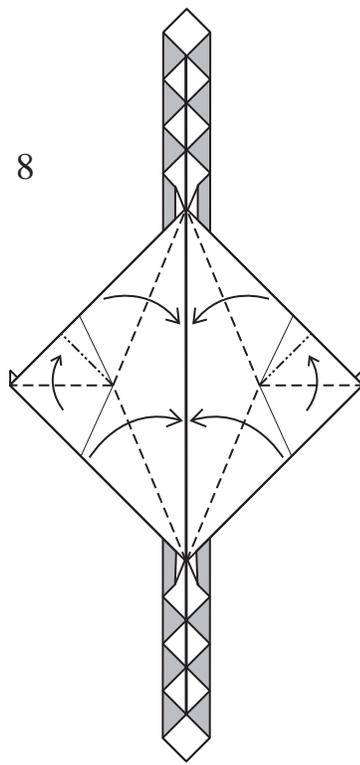

5 Make the two indicated pleats. The best way to do this is to pinch up the two existing creases that are next to the diagonal, C-D, and lay them both onto C-D, thereby making two new valley folds.

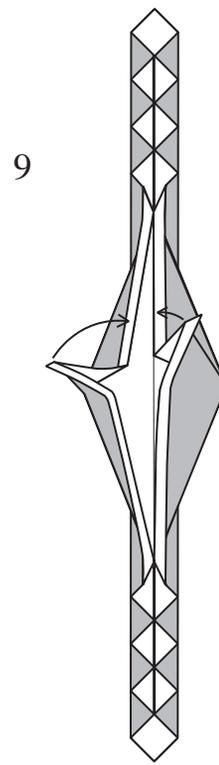

6 Repeat step 5 on each of the other ten parallel creases.

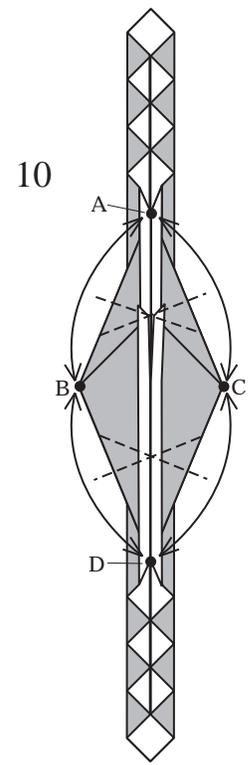

7

8

9

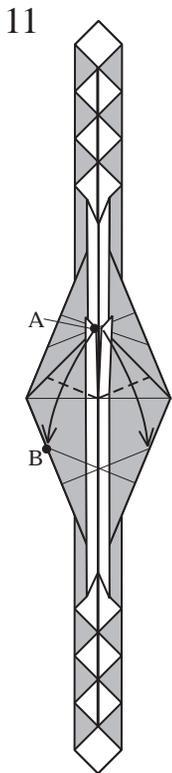

10

Create an equal border around the square by mountain-folding along the edges. What happens at the corners? Rabbit-ear at the left and right and swivel fold at the top and bottom. The line thickness of the peace sign will be double that of this border.

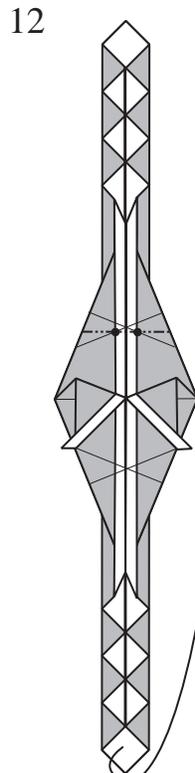

Fold a fish base.

Fish base in progress.

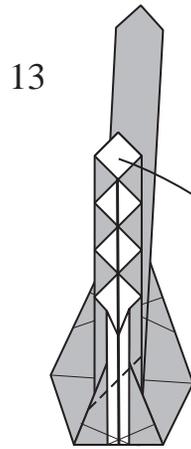

Through all layers, valley fold and unfold A to B, A to C, D to B and D to C.

11

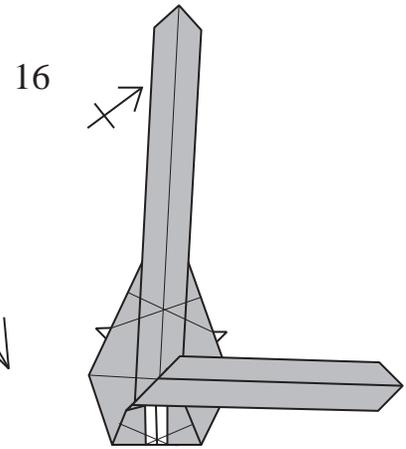

12

13

Valley-fold the front end to the right.

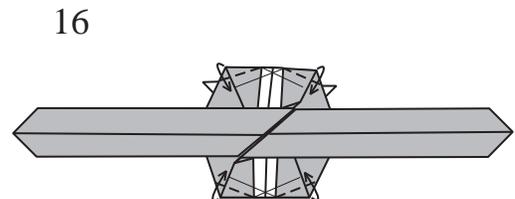

16

Repeat steps 12 and 13 on the top.

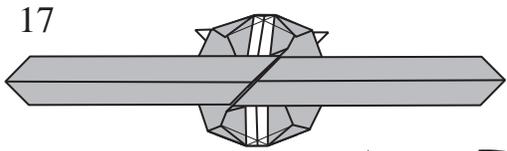

Valley-fold the left flap down bringing point A to point B. Do the same with the right flap.

Mountain-fold the bottom behind folding through points C and D.

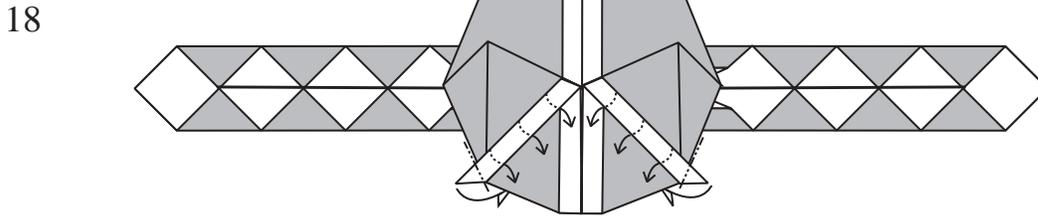

16

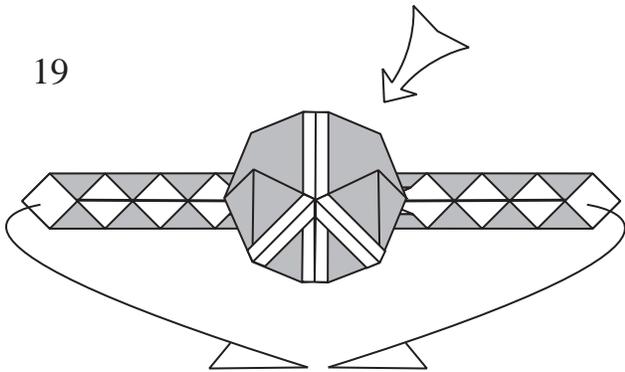

Valley-fold along the creases existing on the back.

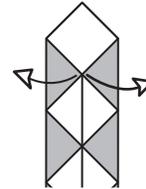

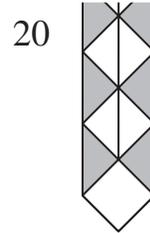

Turn over.

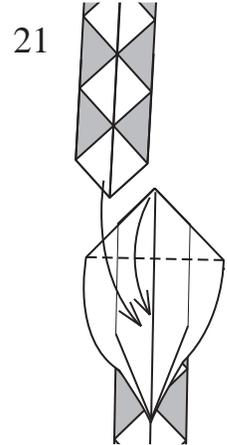

Widen the two limbs of the peace sign by bringing out paper from underneath. When this is accomplished the ends of the limbs should wrap very nicely around the corners of the octagon.

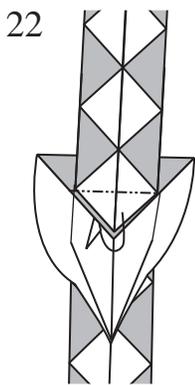

We now have a peace sign on top of a road-kill diamond-back worm. To turn this into a ring, wrap the ends around so they meet behind.

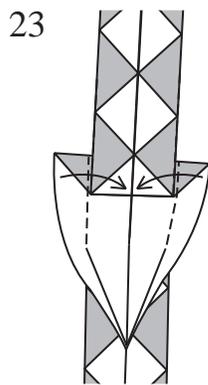

Here a close-up of two ends that need to be locked to form a ring. You could insert one end into the other as in the basic Heart Ring, but a better lock is as follows. Open one of the ends.

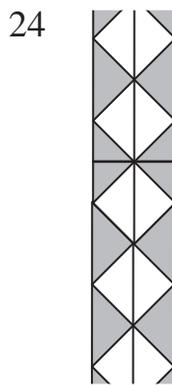

Valley-fold down the tip of the lower end and lay the upper end on top.

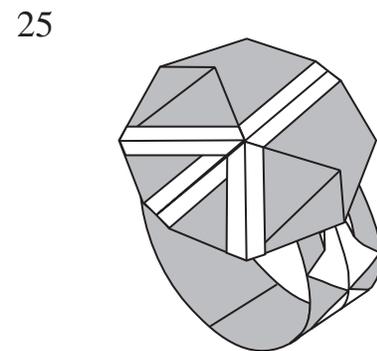

Mountain-fold the corners of both ends.

Close the sides of the newly joined ends.

The ends are now locked. Round the ring and peace sign to taste.

The Peace Ring is found. A significant treasure for a significant other!
