

# Bird of Peace Pop-up Card

By Jeremy Shafer ©1999.

Covered in darkness the peace bird slept.  
Tip toe the morning quietly crept.  
To greet the dawn her wings unfurled  
Wishing peace throughout the world.

16 Reverse-fold (i.e. push the point in) along existing creases.

18 Make valley folds along existing creases.

OPTIONAL

If you would like a heart concealed in your card, make swivel folds at the corners. But the card will look slightly nicer if you skip this option.

Right now this looks like a lovely tombstone (from the back too), or if you valley-fold between A and B, it's a love seat.

19 Valley-fold the top down and the bottom up on the existing creases. As you do this slip the top edge into the pocket. Rotate the model 180°.

20 Reverse fold the head. **It's a Bird! It's a Plane! It's...**

21 ...Just a bird. Indeed, the Bird of Peace has been spotted...

22 ...And is now looking straight at you. Close the card.

23 The Bird of Peace card is enclosed for safe keeping.
